Villa Namouna is at the end of a private road that you access via Blvd. Theodore Roosevelt which is just outside the main part of town. It is on the left, right off route D 6098, Le Basse Corniche, the route along the coast to from Nice to Menton.

You will leave Beaulieu-sur-Mer on route D 6098 toward Menton/Monaco

After the port/marina on the left you'll see a bus stop (Petite Afrique) with a road leading up a small hill. Bear left and go up the little incline...

At the top of the incline there is an underpass that goes beneath the tracks. Continue thru and you'll follow the road further up the hill. **Note: this underpass is only 2.4 metres high.**

Continue up the hill until your first left. (Very sharp)

This is the sharp left as you go up the hill.

Continue around following the narrow road.

Continue... bearing left at the end...

Then right

Continue up the road...

You will arrive at two gates. The gate, use the one on the left... If the gate is locked, see below or special instructions on the mailboxes on the left.

If the gate is closed, use the keypad on the right and the code that has been provided. Be sure not to stand in front of the sensor (below) or the code will not work. Or call Stephan and he can buzz you in from above

Stephan: (06) 43 20 52 91

At the entrance to the parking lot, stop at the X – follow path up to building.
